

REX

HEAT STRESS SURVEY

In the upcoming REFAC meeting on 27th February, your Association will be discussing cabin safety during extreme heat with the company along with the effects of the reduced summer schedule. In order to assist us with this, it is vitally important that as many Rex FAs complete this survey as possible. Without detailed statistics to assist us, it does make change difficult to achieve.

Survey time: Approximately 5 minutes

<https://www.surveymonkey.com/r/Rex-Heat-Survey>

We will report back to Flight Attendants after the REFAC meeting with the outcomes of the survey.
